**Pelco Showcases Broad End-to-End Solution Offers
at Intersec 2019**

FRESNO, California - (Jan. 6, 2019) – [Pelco™ by Schneider Electric](#), the trusted leader in video surveillance solutions, announced today that it will be exhibiting solutions, services, and products in various segment applications at Intersec 2019 held in Dubai on January 20-22. As part of this presentation, Pelco will share a glimpse into a few soon-to-be released products and focus on how new technologies such as increased camera resolutions, cloud services, and analytics are shaping the future. Pelco will also feature significant updates to its VideoXpert™ Video Management System (VMS) platform, the GFC Professional 4K camera, along with other new products like the award-winning Esprit Enhanced camera, with options for white and IR combination illumination.

Recognizing that Pelco VMS and cameras are broadly deployed across a wide range of vertical market applications and trusted by some of the most demanding customers in the world, Pelco will be showcasing multiple vertical market examples including hospitality/commercial, education/correction, oil & gas, city, traffic, and airports.

As technology continues to evolve, organizations face a multitude of challenges that require new solutions. Pelco will share how its products, services, and solutions are incorporating cybersecurity, higher resolution, compression, cloud, and analytics into its portfolio of VideoXpert VMS, cameras, and professional services to deliver compelling, operationally successful deployments.

Pelco will detail how its newly launched Professional Services provide a high level of support for both integrators and end users. By leveraging these services, customers and channel partners can gain access to a team of trained and certified professionals to assist with network and

system design. They can also help customers with configuration, auditing, and onsite issue troubleshooting.

In addition to the newly-released GFC Professional Pro 4k camera, nearly twenty other Pelco products, solutions, and services will be showcased during Intersec 2019. Among them are the Pelco Camera Link, ExSite Enhanced cameras (explosion-proof), Optera cameras (seamless panoramic view), Esprit Enhanced cameras (high-resolution PTZ), and the IBD cameras (corner mount). Visitors are encouraged to experience a hands-on demo of the GFC Pro 4K at Pelco's Hospitality/Commercial and Traffic Monitoring solution booths.

Pelco's Director of Segment Marketing, Stuart Rawling will be participating in a post-lunch panel discussion on January 20, the group will focus on the **seamless integration of innovative security systems with traditional infrastructure** followed with a presentation on January 21 about how to **organize the data chaos** and how connected devices impact the world.

For more information about how Pelco is meeting today's security and surveillance challenges, visit www.securityinsights.pelco.com or follow Pelco on Twitter ([@PelcoVideo](https://twitter.com/PelcoVideo)).

Notes to the editor:

Jean-Marc Theolier, CEO, Phillipe Roux, VP of Global Sales, Robert Beliles, VP of Marketing, and Stuart Rawling, Director of Global Segment Marketing will be available for **interviews** during Intersec. Please contact Brooke Christopher (brooke.christopher@schneider-electric.com +1 (970) 282-1955) to schedule your interview. There are a limited amount of slots available.

During the trade show, Pelco will distribute a press release with more detailed information on the solutions that are on display, plans for the future, and high-res pictures. If you would like to receive this **press release under embargo**, contact Brooke Christopher (brooke.christopher@schneider-electric.com).

About Pelco by Schneider Electric

Pelco, a Schneider Electric company, is a world leader in the design, development and delivery of video security solutions and services deployed in countless markets by the most-demanding customers. These advanced solutions incorporate Pelco cameras and Pelco software for video management and integration with other data driven applications. Pelco sees the use of video and predictive capabilities as key to improving the well-being of people through enhanced protection and automation in Urban and Enterprise environments.
