Pelco to Present Broad Range of Solutions at ISC West 2019

FRESNO, California - March 13, 2019 – [Pelco™ by Schneider Electric](#), the trusted global provider of end-to-end video security solutions, will be exhibiting products, solutions, and services for several market segment applications at ISC West 2019, held in Las Vegas from April 10-12.

Pelco is shaping the future with leading technologies such as Cloud Services, Automatic License Plate Recognition, 4K imaging capability, and advanced deep learning-based analytics. Pelco will showcase VideoXpert™ Video Management System (VMS) platform enhancements, the GFC Professional 4K camera, and the recently-launched Spectra Professional 4K camera. When combined with the new VxCare Professional Services offering, a bundled three-tier service plan for VideoXpert Professional and Enterprise systems, customers can benefit from optimized performance and system availability of their video management system backed by a high level of support for both integrators and end users. Additionally, Pelco will preview other products and services that will be available in the next few months.

Pelco VMS and cameras are broadly deployed across a wide range of vertical market applications and trusted by some of the most demanding customers in the world. Pelco will be showcasing multiple deployment examples including healthcare, city surveillance, commercial/retail, education, and others.

In addition to the GFC and Spectra Professional 4K cameras, many other Pelco products and services will be on display at the event. Among them are the upcoming GFC Professional Multi (multi-directional IP camera), the Evolution camera series (ultra-wide-angle panoramic

monitoring), the Spectra Enhanced and the award-winning Esprit Enhanced cameras, the Optera 270 camera (seamless panoramic view), and the High Security Corner Mount IBD camera, to name a few. Visitors are encouraged to experience our hands-on, real-time product demos at **Booth #20031**.
